WOODSTOCK FINE ARTS ASSOCIATION 2018 FALL CHILDREN'S PROGRAM POTTS & PANS STEELBAND

Potts & Pans Steelband is the artist in residence at Culture, Arts and Music, a 501(C)3 organization that promotes world diversity through the arts. Potts & Pans will take students to the Caribbean island of Trinidad and Tobago to talk about, and demonstrate, the incredible steelpan instrument (also commonly called the steel drum). While showcasing the instrument's ability to perform multiple types of musical genres, they will also share information about the history of the pan and how it has evolved. For more information about the group, check out

pottsandpans.com or cultureartsmusic.org.
